Topogun

Substance Painter
Photoshop
Illustrator

Unreal 4
Marmoset 4

InDesign
Premiere

Blender
After effects
Marvious Designer

- FLUENT IN -

English (Native)
Dutch

- BIO -

As a young lad, I moved to The Netherlands, where I've been living for eighteen plus years. Throughout most of my life, I've played a decent amount of games and love the creation of games all round. After many years of hard work at college, I took an internship at Team 6 Game Studios and worked my way up the ladder, where I now work as a character artist. Throughout that growth process I learned a handful of skills across the development board which has helped me develop a diverse skill set. Beyond and looking forward, I'm looking to sharpen my character pipeline and have a good understanding on how to create characters and monsters. Outside of work I like socializing, playing new and old games and creating/designing game art and doing a wide variety of other hobbies.
